- 3-Constraction & Building Maintenance
- 4-Telephone Network Civil Infrastructure

Apart of being a trading and contracting company, means we can assist our customers to locate solutions specially engineering to meet their rapidly changing needs. Our management team is handle solutions for a dynamically evolving industry.

About Electrical Service

The aim of ARABILLA Engineering's Electrical Design area is to provide quality services and consultancy to clients to deliver efficient, safe and purpose specific electrical designs.

We are able to provide accredited Project Management expertise and, through affiliation of its Design House and alliance companies' Underground and Overhead Reticulation areas, a "one stop shop" offering both electrical design and construction services.

We offers accredited, professional Electrical Design services in the areas of: Residential, commercial and industrial estates, including Public Lighting Installations, Electrical Distribution and Sub Transmission Networks, Commercial and industrial installations such as shopping centres and industrial precincts.

The aim of the company is to provide quality services and consultancy to clients to deliver efficient, safe and purpose specific electrical designs.

I am the founder of **ARABILLA TRADING AND CONTRACTING COMPANY** 16 years ago. Since then the company has been served to the community while providing reliable and quality assured services. Today it has reached as grade A contractor for low voltage installations by kahramaa.

The **ARABILLA** trading and contracting company also includes a Building and Civil and mechanical Engineering Section which is responsible for turnkey construction projects.

It also provides general support services telectromechanical operation and maintenance works, including building work , carpentry, and plumbing, L V electrical systems, gardening and purchasing services.

Electrical installation and maintenance are performs to international standards and typically includes heating, ventilation, refrigeration, evaporative cooling, air conditioning, valves,

mechanical and electrical motors, generators ATS/ATF panels compressors, elevators, rotating equipment, switchgear, transformers, distribution lines, power generators, telephone control systems, instrumentation and other electrical, mechanical, pneumatic and electrical equipment.

From its prime operational centre in Doha, Construction, Maintenance and Engineering Division is able to provide construction/maintenance/engineering services throughout the Qatar and can respond effectively to emergency situations, rapidly deploying experienced engineering and support personnel to site. Its main clients for operation and maintenance services include the private sector, the Group of companies, Government corporations and Q-tel too. Our valuable customers always welcome to receive such services from us.

Eng. Basil Malkawi

General Manager
